Course numbers in **bold** are BMCC course numbers.

<sup>1</sup> General electives are not required for the Associate of Applied Science (AAS) degree seeking students but are required for those planning to continue to the Bachelor of Science (BS), major in Nursing, at Oregon Health and Science University. At least 9 credits must be from the Humanities for the BS degree. At least 15 non-nursing elective credits must be upper division (300- or 400-level Arts, Letters and Sciences courses), with a total of 180 credits over the four years of the curriculum required for the BS degree.

<sup>2</sup> WR 227 is not required if students previously completed WR 123 at 3 credits or have completed WR 122 at 4 credits (inclusive of research writing), or have completed a bachelor's degree from a regionally accredited college or university in an English speaking country. It is *highly* recommended that all writing courses be completed prior to starting the nursing program.
