**Date Posted on Web: 08-08-17**  
**Revised: 08-17**  
**Reviewed: 08-17**

---

### **Purpose/Principle/Definitions:**

In accordance with ORS 433.283 and the Oregon Health Authority OAR 333-050-0140, obtain proof of two doses of measles vaccine prior to a student's participation in a course or athletic event as follows: clinical experiences in allied health programs, practicum experiences in education and child care programs and membership on intercollegiate sports team.

### **Guideline:**

Students, as identified above, will be required to provide proof of two doses of measles prior to participation in a clinical, practicum, or athletic event. Students that have not received at least two doses of measles may be eligible for a nonmedical exemption with signed documentation from a health care practitioner or a certificate verifying that the student has completed a vaccine educational module approved by the Oregon Public Health Division.

All completed immunization forms must be sent to the Registrar's Office prior to the student's participation in an athletic event, clinical or practicum experience. Forms will be stored in the student's regular file. Immunization forms will be retained and subsequently purged according to the college's record retention and destruction policy and procedure.

The Office of the Registrar will be responsible for completing the annual Oregon Health Authority Report as requested by the Oregon Department of Human Services.
