## COMMENCEMENT REGALIA

The first academic gowns and hoods provided warmth in the unheated buildings of 12th and 13th century Europe. The mortarboard became common in the 14th century, though some universities adopted a soft cap or other covering. In 1895, American universities adopted a formal standard that has remained virtually unchanged to this day. A bachelor's gown has pointed sleeves. A master's gown has long closed sleeves with the opening at the wrist. A doctor's gown has bell-shaped sleeves and velvet decoration. The colors of the hood lining signify the institution conferring the degree of the wearer, and the trim colors signify the degree discipline.

The first BMCC Commencement Ceremony took place in 1963 and honored 39 graduates.

Today we honor 273 graduates ranging in age from 17-74. These graduates come to us from California, Idaho, Montana, Nevada, Pennsylvania, Oregon, Utah, and Washington. 91 students are graduating with honors/high honors, and 2 are veterans. 9 local high school students will have completed an Associate of Arts Oregon Transfer degree by the end of Summer Term 2024.

---

Participation in today's program may not represent completion of all degree requirements by May 30, 2024. The appearance or absence of any name in the program does not constitute recognition or denial of completion of degree requirements nor the conferring of honors. This is a ceremonial publication and not an official record of graduates.
